

# Dakota Classic 76 30/06

The Dakota® Model 76 Classic™ is the entry level Model 76™, the first choice for someone seeking the strength of the Model 76 action, planning to use the rifle with optics rather than open sights and desiring a simpler trim stock.

Features controlled round feeding and positive extraction; the extractor, underneath the locking lug and positioned at the end of the bolt, opens fully to insure that the next round feeds smoothly. The three-position safety allows the bolt to be operated with the safety on. The one-piece trigger guard and hinged floorplate are machined from solid bar stock. Every

Standard Features:

XX grade English walnut, hand-rubbed oil finish, point panel checkering, Dakota swivel studs, 13 5/8" length of pull, black recoil pad, Short, standard and long actions

**Serial #**
