

MODEL 97 HUNTER SYNTHETIC – 7MMSTW

A superior breed of hunter, crafted with the supreme quality and precision the Dakota name was built on. It features a lighter, round-body configuration and includes all the best pre-64 Model 70 and Mauser features, plus a match-grade barrel and adjustable Model 76 trigger for peak accuracy.

Standard features of the Model 97:

- Left or Right hand available
- Short or long actions available
- Chromoly or stainless action available
- Blind box magazine (long range all-weather and outfitter)
- Talley bases for generic Talley rings (rings not included)
- 13-5/8" length of pull
- 23" barrel for short actions
- 25" barrel for long actions
- Drilled and tapped for 8-40 scope base screws
- Individually pillar bedded
- The Model 97 combines features of the pre-64 Model 70
With a Mauser-type extractor and a compact round action
